

Primary Mathematics Problem Solving for ALL your Pupils

During these twin workshops, explore how 'sowing the seeds' for successful problem solving in Maths, begins with establishing a productive classroom climate. Learn how to encourage all your pupils to openly share their strategies, value how they can learn from mistakes and see how productive struggle can help to develop a 'growth mindset' to maths and problem solving. Choosing the correct tasks will ensure maths language is embedded in a context and give all your pupils a chance to shine at problem solving in Maths. Suitable for all primary teachers.

VENUE	DATE, DAY 1	DATE, DAY 2	TIME
